

Ameren Missouri Heating and Cooling Program

Rebate Chart for New Construction – Residential Electric Customers Only

Heating and Cooling Program New Construction Rebate Measures*		Rebates Valid for Installs on or After March 1, 2018
Air-Source Heat Pump[†] AHRI Rated		
SEER 15 – Air-Source Heat Pump		\$500
SEER 16+ – Air-Source Heat Pump		\$650
Air-Source Heat Pumps must have an electric backup heat source (no gas backup).		
Ductless Air-Source Heat Pump[†] AHRI Rated, Per Outdoor Unit		
SEER 19+ – Ductless Air-Source Heat Pump		\$500
Ductless Air-Source Heat Pumps are NOT eligible in new construction residences using gas as a primary heat source. The only exception is with an addition in which the dwelling's existing ducted gas heating system is not being replaced and the installation of a properly sized ducted system to the newly constructed space is cost prohibitive.		
Dual Fuel Heat Pump[†] AHRI Rated		
SEER 15 – Dual Fuel Heat Pump		\$175
SEER 16+ – Dual Fuel Heat Pump		\$200
Dual Fuel Heat Pumps must have a gas backup heat source (no electric backup).		
Ground Source Heat Pump[†] AHRI Rated		
EER 14+ – Ground Source Heat Pump		\$2,000
EER requirements above are partial cooling load. Geothermal Heat Pumps are NOT eligible if the new construction residence uses natural gas as a primary heat source.		
Central Air Conditioner AHRI Rated		
SEER 14 – Central Air Conditioner		\$300
SEER 15 – Central Air Conditioner		\$400
SEER 16+ – Central Air Conditioner		\$500
Electronically Commutated Motor (ECM)		
	Included in AHRI Efficiency rating	Not included in AHRI Efficiency rating
Factory Installed in a New Gas Furnace or Air Handler	\$50	\$100
ECMs installed with ductless air-source heat pumps are not eligible for a rebate.		

*Some restrictions may apply. Valid through February 15, 2019. Visit AmerenMissouri.com/hvac for full program details.

[†]Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

General Eligibility Information

- The equipment must meet the program's eligibility requirements listed here to qualify for the rebate.
- The dwelling must be associated with a current Ameren Missouri residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:
 - Single-family residence
 - Multifamily building with four units or fewer, in any configuration
 - Row house, which is defined as a single-family dwelling unit that shares common vertical walls only with other single-family dwelling units. Multistory, multifamily dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit do not qualify.
- A participating contractor must install the qualifying equipment and that contractor must be participating at the time of installation. Participating contractors can be located by visiting AmerenMissouri.com/hvac or calling 1.877.215.5752.

- All rebate applications and supporting documents must be submitted by a participating contractor within 30 days of service and by February 15, 2019.

New Construction Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER) or Energy Efficiency Ratio (EER) levels set forth by the program above and documented by the Air-Conditioning, Heating and Refrigeration Institute (AHRI).

Contractor Eligibility and Participation

- All interested contractors are required to attend program orientation and complete a contractor participation agreement prior to offering Ameren Missouri rebates.
- Rebate applications and supporting documentation are submitted by contractors on behalf of customers.
- In order to begin the process of becoming a participating contractor, visit AmerenMissouri.com/hvac or call 1.877.215.5752.
